# Mahin Sindhwani

St. John's, NL | mahinsindhwani@gmail.com | msindhwani.dev | LinkedIn | GitHub

## Education

**Memorial University of Newfoundland** — St. John's, NL
*B.Sc., Major in Computer Science, Minor in Mathematics* — *Expected May 2027*
GPA: 3.92 | Dean's List 2024–25 | M.O. Morgan Alumni Scholarship

## Experience

**Software Developer Intern** — Sept. 2025 – Aug. 2026
*Enaimco* — *St. John's, NL*

- Shipped customer-facing features for a subsea digital twin platform in **React, TypeScript, and Cloudscape**, backed by **Express and MongoDB**, including an ROV utilization dashboard and a valve movement request workflow.
- Built admin tooling to move app uploads between Azure Blob containers with duplicate checks, letting engineers reorganize files themselves instead of waiting on a developer.
- Integrated **PostHog analytics and feature flags**, giving the team visibility into user behaviour to guide product decisions.
- Won two internal hackathons: built a **Claude-AutoCAD workflow via MCP** to map client schematics into the app, saving engineers hours, and redesigned the asset hierarchy as a **node-based graph**.

**Peer Assisted Learning [PAL] Leader** — Sept. 2024 – Present
*Memorial University of Newfoundland* — *St. John's, NL*

- Led weekly PAL sessions for 3 terms in programming [COMP1001] and Calculus II [MATH1001], consistently drawing groups of 5–15 students.
- Designed original interactive activities to help students work through course material systematically, receiving consistently positive feedback.

**Software Engineering Intern** — July 2024 – Sept. 2024
*Embrays Technologies* — *Remote*

- Built responsive React components from provided designs and fixed bugs alongside senior developers.

## Projects

**B'y Your Side**

- Won **1st place** at the **IBM watsonx** Hackathon 2026 with a context-aware healthcare AI assistant that combines patient records and wearable vital data to personalize health alerts using medications, diagnoses, risk factors, and historical trends.

**IntuitiveCS**

- Co-developed an **interactive logic visualization platform** used in COMP1002 at MUN, built with **React and ReactFlow** and well received by students.

**Marketplace Negotiator**

- Built a python tool that scrapes Facebook Marketplace with **Selenium** and writes personalized inquiry messages via the **OpenAI API**.

**Portfolio Website**

- Built a personal site built with **React and TypeScript**, featuring a terminal-inspired design, typed content data, and automated deploys to a custom domain via **GitHub Actions**.

## Awards & Extracurricular

**Awards**: **1st Place, IBM** watsonx Hackathon 2026 | 2nd of 13, CyberSafe NL CTF 2025 | 71st, ICPC-NENA 2023
**Involvement**: **Mastercard CTF** Series [East Regional] 2026 | **Let's Talk Science** 2025 | **Hack Frost NL** 2024

## Skills

**Languages**: TypeScript, JavaScript, Python, Java, Dart, Rust
**Frameworks & Libraries**: React, Express, Flutter, ReactFlow, TanStack, Cloudscape, pandas, NumPy
**Databases & Cloud**: MongoDB, Azure
**Tools**: Git, PostHog, New Relic, Vitest, Selenium
